

Hello,

The ATA board looks forward to hosting more hands-on educational opportunities to learn not only about our Tarentaise cattle, but also increase their knowledge of feed and minerals that will aid in their own production. In this ever-changing industry that's constantly evolving we feel it is of the utmost importance to pass along knowledge-based learning to our nation's youth and that will be our main goal however we can not do this without your help.

I would like to give you the opportunity to promote your business with the next generation of farmers. There are a few different ways you and your company can help.
